	<i>Banking, Security Market, Production, Income and Prices.</i>	17

TABLES AND CHARTS MAY BE REPRODUCED OR REFERRED TO PROVIDED THAT THE BANK OF CANADA STATISTICAL SUMMARY, WITH ITS DATE, IS SPECIFICALLY QUOTED AS THE SOURCE

Tables and Charts refer to Canada unless otherwise stated.

Most of the figures in the Summary are, for want of space, given to a certain degree of approximation only. Where this is the case a total does not necessarily equal the sum of its constituent items.

SUBSCRIPTION: 25c per copy, post free. For particulars apply to the Research Department, Bank of Canada, Ottawa.

\* Differing coupon rates and maturity provisions, and the fact that the U. S. Treasury issue is exempt from "normal" income tax, vitiate any direct comparison of absolute yield levels.

- (1) Average of Dominion of Canada 3% due June 1, 1950-55 and 3¼% due June 1, 1956-66.
- (2) United Kingdom 3% due Jan. 15th, 1954-58; price excluding accrued interest.
- (3) U. S. Treasury 2¾% due Mar. 15, 1955-60.
- (4) Average Jan. 1-27 for Bond Prices and Yields.

### LONG TERM DOMESTIC GOVERNMENT BOND YIELDS: CANADA, U.K. & U.S.A. : 1940-41

(1) Subject to revision. (2) Treasury Bills are excluded. For particulars of Dominion Treasury Bills see Heading IV. (3) C.N.R. bonds guaranteed by provinces are treated under the heading "Other C.N.R.". (4) Includes retirements through sinking fund purchases. In many cases available data did not permit more than arbitrary approximations for separate portions of the fiscal year. (5) The \$40 mm. Dominion issue due in New York on 1st Jan., 1939, which was refunded in New York in November, 1938, is for the purposes of this table taken as maturing in the last quarter of 1938. (6) Does not include \$250 mm. of 1 year 1% Notes which, under the Exchange Fund Order, 1940, the Dominion government issued and sold to the Bank of Canada on May 1 in order to supply the Foreign Exchange Control Board with funds with which to purchase gold and foreign exchange under the terms of the Foreign Exchange Acquisition Order. (7) Payable in Canada only. (8) Because of lack of sufficient data no tabulation of retirements by municipalities and religious institutions was possible. For the same reason these bodies are not included in the Summary of Changes in Currency of Payment. (9) Includes \$48 mm. of C.P.R. bonds issued to refund Dominion guaranteed bank loans. \$12 mm. was delivered in the first quarter and \$36 mm. in the second quarter of 1936. (10) The issue of \$75 mm. of Dominion Treasury Bills in the second quarter of 1940 was made in the same manner and under the same authority as the issue of Notes referred to in note (6) above. (11) The \$30 mm. Bell Telephone issue which was called for redemption on 1st March, 1940, and refunded in August, 1939, is for the purposes of this table taken as maturing in the third quarter of 1939. (12) Including issues payable optionally in Canada or London. (13) Only, or optionally.

## ERRATUM

DEC.-JAN. 1941 ISSUE, pages 8 and 9

BOND ISSUES AND RETIREMENTS: last quarter of 1940 and 1940 total.

A December retirement of \$44.5 mm. payable in London, was omitted, in error.  
The corrected figures are given in the present issue.

(1) Treasury Bills are excluded. (2) Figures for the gross amount of bonds outstanding are compiled from latest official sources adjusted to 31 December, 1940, by subsequent known issues and redemptions; when full details regarding these become available minor revisions may be necessary. (3) Including issues payable in Canada or London, and one issue payable in London or Paris. (4) Figures for guaranteed issues are approximate in some cases for which full particulars are not available. (5) The \$33.3 mm. of School Land Debenture Stock issued by the Dominion and held by Provinces is excluded. (6) C.N.R. issues guaranteed by the provinces, being included under the C.N.R. heading, are excluded from provincial headings.

(1) Canadian Customs figures adjusted for changes in stocks of Canadian wheat in U.S.A., Lake and Seaboard Ports. (2) Exclusive of consumption of 5.7 mn. bushels imported from the United States. (3) Revised. (4) The discrepancy of 8 mn. bushels between actual stocks at July 31, 1940 and stocks as indicated by the other figures for the crop year 1939/40, has not yet been allocated among the items concerned. (5) Dominion Bureau of Statistics preliminary estimate. (6) Unadjusted Customs figures are 51 for 1937, 90 for 1938, 110 for 1939 and 73 for 1940.

TABLES AND CHARTS MAY BE REPRODUCED OR REFERRED TO PROVIDED THAT THE BANK OF CANADA STATISTICAL SUMMARY, WITH ITS DATE, IS SPECIFICALLY QUOTED AS THE SOURCE

Tables and Charts refer to Canada unless otherwise stated.

Most of the figures in the Summary are, for want of space, given to a certain degree of approximation only. Where this is the case a total does not necessarily equal the sum of its constituent items.

SUBSCRIPTION: 25c per copy, post free. For particulars apply to the Research Department, Bank of Canada, Ottawa.

(1) Subject to revision. (2) Treasury Bills are excluded. For particulars of Dominion Treasury Bills see Heading IV. (3) C.N.R. bonds guaranteed by provinces are treated under the heading "Other C.N.R.". (4) Includes retirements through sinking fund purchases. In many cases available data did not permit more than arbitrary approximations for separate portions of the fiscal year. (5) The \$40 mm. Dominion issue due in New York on 1st Jan., 1939, which was refunded in New York in November, 1938, is for the purposes of this table taken as maturing in the last quarter of 1938. (6) Does not include \$250 mm. of 1 year 1% Notes which, under the Exchange Fund Order, 1940, the Dominion government issued and sold to the Bank of Canada on May 1 in order to supply the Foreign Exchange Control Board with funds with which to purchase gold and foreign exchange under the terms of the Foreign Exchange Acquisition Order. (7) Payable in Canada only. (8) Because of lack of sufficient data no tabulation of retirements by municipalities and religious institutions was possible. For the same reason these bodies are not included in the Summary of Changes in Currency of Payment. (9) The issue of \$75 mm. of Dominion Treasury Bills in the second quarter of 1940 was made in the same manner and under the same authority as the issue of Notes referred to in note (6) above. (10) The \$30 mm. Bell Telephone issue which was called for redemption on 1st March, 1940, and refunded in August, 1939, is for the purposes of this table taken as maturing in the third quarter of 1939. (11) Including issues payable optionally in Canada or London. (12) Only, or optionally.

(1) Source: Newspaper Association of Canada. (2) Total output less exports and deliveries to electric boilers. (3) As at end of month. (4) Excluding highways. (5) Average of months in case of Physical Volume of Business, Department Store Sales and Employment Indexes. \*12-months ending January 1941. † January 1940 and subsequent months revised to base 1935-39 = 100.

CERTAIN COMPONENTS OF NATIONAL INCOME<sup>(1)</sup>: 1929-40

(1) For sources see footnote on facing page. The chart refers to money income only, while a person's "real" income is, of course, affected by price changes as well as changes in money income. \* Interest and dividends received by Canadians. † Net cash income, plus money value of income in kind from produce and owned dwellings, less depreciation on buildings and equipment.

<b>DEFICIT (= INCREASE IN NET DEBT)</b> .....	<b>77.9</b>	<b>17.7</b>	<b>50.9</b>	<b>118.7</b>	<b>395.1</b>	

\* The figure for 1941/2 war expenditure is highly tentative, representing the total of estimates submitted by the various departments concerned.  
\*\* It should be noted that the table takes no account of the Dominion government's 1941/2 new money requirements in connection with its financing of U.K. purchases in Canada, tentatively estimated in the Budget Speech at a net \$800/900 mm. See also note (e). † No allowance has been made for subsequent modifications of tax proposals. (a) Reimbursement to provinces for income and corporation taxes, after deducting special grants to provinces and the yield from certain additional specific taxes to be imposed. (b) Subsidies paid under the Maritime Freight Rates Act, and in connection with movements of coal. (c) Includes \$2.6 mm. (in 1939/40) and \$7.2 mm. (in 1940/1) paid in fulfilment of seed grain loans guaranteed in 1936 and 1937 respectively. (d) Advances to Prairie Farm Emergency Fund in 1939/40 and 1940/1, and in 1941/2 provision for payments on reductions in wheat acreage.

Canadian Wheat Board Bank Loans .....	45.0	.5	60.7	18.2	58.1

(e) No estimate is available in regard to possible Wheat Board cash requirements for 1941/2. (f) Payments to maintain annuities reserve, and capital surplus arising from exchange discount on sterling bonds redeemed. (g) Apart from write-offs of Drought Area Relief Loans to provinces (\$18.5 mm. in 1936/7 and \$1.4 mm. in 1939/40) consists mainly of Soldier and General Land Settlement Loans written-off. (h) Does not include C.N.R. equipment trust certificates, which are retired out of revenue. (k) Payable in London only, or optionally in Canada or London. (n) The advance to the Foreign Exchange Control Board was for the purpose of enabling it to purchase gold and foreign exchange in connection with the Foreign Exchange Acquisition Order. (o) Treasury Bills and Notes include all bonded debt originally issued for a term of 3 years or less. (s) Consists of \$4 mm. deposit by Wheat Board in 1937, \$9 mm. earmarked re London Loan in 1938, \$25 mm. earmarked for Wheat Board losses in 1939 (in each case withdrawn in the following fiscal year) and \$10.5 mm. earmarked for Wheat Board losses in 1941.

† Wheat is included at the open market price or the Wheat Board's minimum buying price, whichever is the higher. (1) Adjusted to 1926 = 100 from base 1913 = 100 in 1926-29 and from base 1930 = 100 in 1930 and thereafter. (2) Bureau of Labour Index of Prices of Finished Products.

INDUSTRIAL MATERIAL PRICES : 1938-41

\* All of the increase shown between April 25 - May 2, 1941, accounted for by the extension of the sales tax to building materials. (1) Spruce lumber, fir lumber, pulp (unbleached sulphite), pulp (bleached sulphite), iron ore, scrap iron, structural shapes, merchant bars, steel sheets, crude oil, coal, and white lead. (2) Wheat, oats, sugar, steers and hogs. (3) Rubber, linseed oil, cottonseed oil, resin, beef hides, cotton, wool, silk, manila hemp, lead, zinc, copper and tin ingots.

(1) Subject to revision. (2) Treasury Bills are excluded. For particulars of Dominion Treasury Bills see Heading IV. (3) C.N.R. bonds guaranteed by provinces are treated under the heading "Other C.N.R.". (4) Includes retirements through sinking fund purchases. In many cases available data did not permit more than arbitrary approximations for separate portions of the fiscal year. (5) The \$40 mm. Dominion issue due in New York on 1st Jan., 1939, which was refunded in New York in November, 1938, is for the purposes of this table taken as maturing in the last quarter of 1938. (6) Does not include \$250 mm. of 1 year 1% Notes which, under the Exchange Fund Order, 1940, the Dominion government issued and sold to the Bank of Canada on May 1 in order to supply the Foreign Exchange Control Board with funds with which to purchase gold and foreign exchange under the terms of the Foreign Exchange Acquisition Order. These notes were renewed in 1941. (7) Payable in Canada only. (8) Because of lack of sufficient data no tabulation of retirements by municipalities and religious institutions was possible. For the same reason these bodies are not included in the Summary of Changes in Currency of Payment. (9) Includes \$48 mm. of C.P.R. bonds issued to refund Dominion guaranteed bank loans. \$12 mm. was delivered in the first quarter and \$36 mm. in the second quarter of 1936. (10) The issue of \$75 mm. of Dominion Treasury Bills shown in the second quarter of 1940 was made in the same manner and under the same authority as the issue of Notes referred to in note (6) above. (11) The \$30 mm. Bell Telephone issue which was called for redemption on 1st March, 1940, and refunded in August, 1939, is for the purposes of this table taken as maturing in the third quarter of 1939. (12) Including issues payable optionally in Canada or London. (13) Only, or optionally.

(1) Average Jan. 1 - Dec. 1. (2) Lumber and Products, Pulp and Paper Products and Logging. (3) Excluding Highway Construction and Maintenance.  
\* Not strictly comparable with preceding months due to revision in basis of calculation.

### EMPLOYMENT: PERCENTAGE INCREASE BETWEEN MAY 1, 1940 AND MAY 1, 1941

NOTE: The area of each bar in the chart represents, for that industrial category, the absolute increase in the number of persons employed by reporting firms between the dates in question. The total number employed by such firms on May 1, 1941 was approximately 1½ millions and the increase over the year was roughly 310,000. \* Highway construction and maintenance is excluded.

\* Comparisons between 1939 and 1940 should take account of the differing exchange rates in the two years.

- (1) Exclusive of normal non-payment items. Exports, however, do include articles shipped abroad for use of Canadian forces overseas and imports include articles brought in by the United Kingdom government for its own use in Canada. These are offset by appropriate entries under "Other Current Items".
- (2) In terms of volume, net non-monetary gold exports in 1939 and 1940 were 5.1 and 5.3 millions fine oz. respectively.
- (3) More comprehensive data for 1940 indicate that estimates made in previous years were too high. Estimates for 1939 have been revised on the new basis, but previously published statistics are not comparable.
- (4) This represents gold bought from the United Kingdom in part settlement of the U.K. deficiency with Canada and sold in turn in the United States to settle part of Canada's deficiency with that country.
- (5) Consisting chiefly of U.K. capital expenditure on war plants in Canada, but including as well capital receipts by Canada in respect of securities, mortgages, estates and trusts, insurance transactions, etc.
- (6) Consisting of a reduction in Empire balances held in Canada, sales of British-owned securities in Canada, private retirements of Canadian securities held in Empire Countries and miscellaneous other small capital payments by Canada, amounting in all to \$111 mm.; official repatriation i.e., the redemption before maturity of certain Dominion and Dom. guaranteed C.N.R. bond issues held in the United Kingdom, of \$141 mm.; and \$82 mm. accumulation of sterling balances by the Foreign Exchange Control Board.
- (7) This includes redemption of securities and other obligations, the estimated decline in non-Empire Balances held in Canada and other miscellaneous capital payments in respect of real estate, estates and trusts, insurance, etc. Since Sept. 15, 1939, these capital payments have been subject to the restrictions imposed by foreign exchange control.
- (8) This is accounted for by sales of foreign securities (and some domestic securities) in the United States, capital receipts in connection with direct investments, mortgages, real estate, estates and trusts, insurance, etc., and by a reduction in Canadian holdings of gold and U.S. dollar balances.
- (9) Reflects possible errors, the omission of certain factors which cannot be measured statistically such as changes in the timing of payments for goods and services, and, prior to the war, conversion of surplus sterling into other currencies.

(1) Including all school authorities. See note (1) on facing page. Provincial Grants and Subsidies have been excluded from Revenue and corresponding amounts deducted from Expenditure where necessary. The classifications of Revenue (other than taxation) and Expenditure involved a considerable amount of estimation so that classified totals are at best approximate. (2) (3) See notes (3) and (4) on facing page. (4) Amounts represent "Tax Levies" and not "Tax Collections". (5) Consists largely of Business Taxes and, in the Maritimes, Personal Property Taxes. (6) Including school fees. (7) Does not include any surpluses from previous year or Capital Surplus appropriated. Includes miscellaneous School Revenue. (8) Including all Expenditures on Direct Relief even if such expenditures were funded.

★A small part of Great Britain's Canadian dollar requirements in connection with her war purchases in Canada are being met by private repatriation, i.e. by sales of British-owned Canadian securities in Canada, by retirements of Canadian obligations (other than Dominion and guaranteed C.N.R. bonds) held in the United Kingdom, and by other private capital payments from Canada to the United Kingdom; this private repatriation is, of course, not shown in the present tabulation. However, Britain's remaining Canadian dollar requirements are being provided by the Dominion Government in the manner shown in the table above, i.e. to a relatively small extent by repayment in advance of maturity of certain Dominion and guaranteed C.N.R. bond issues payable in London, and, to whatever additional extent is necessary, by the Foreign Exchange Control Board accumulating sterling balances.

★★Advances from the Dominion Government (totalling \$400 mm. to Aug. 31, 1941) have been the Foreign Exchange Control Board's main source for the Canadian dollars which it uses to accumulate sterling. However, there have also been available for this purpose:—(a) the original Canadian dollar resources of the Board; (b) Canadian dollars acquired by the Board through net sales of gold and U.S. dollars; (c) Canadian dollars acquired by the Board through sales of exchange to the Bank of Canada on a temporary basis. These last three methods of financing the accumulation of sterling require no immediate cash from the Dominion Government, and are shown in the table under the heading "Self-Financing by Foreign Exchange Control Board re Sterling Accumulation."

† Does not include issues sold to banks for refunding purposes, and the corresponding redemptions are, of course, excluded from "Maturing Issues". Total chartered bank and Bank of Canada holdings of Dominion and Provincial securities increased by \$32 mm., \$181 mm., and \$255 mm. respectively in the three years ending Aug. 31, 1941, exclusive of the special \$325 mm. issue mentioned in footnote (6).

(1) These are rough estimates as given in recent statements by the Minister of Finance, and, particularly in the case of revenue, differ somewhat from the figures given in the Budget Speech of April 29, 1941. (2) Includes all ordinary and capital expenditures of the Department of National Defence, and net disbursements under National Defence Advance Accounts, as well as those disbursements under War Appropriation Acts which are charged to Active Assets. (3) Excludes contributions to sinking funds. (4) In the case of wheat includes \$25 mm., \$27 mm. and \$10½ mm. respectively in the three years ending Aug. 31, 1941, which amounts were provided by the Dominion Government as a reserve to meet deficits resulting from the operations of the Canadian Wheat Board calculated up to July 31, 1940. Does not reflect the Wheat Board's own financing through Dominion guaranteed bank loans. (5) All were payable in Canadian dollars only except for a maturity and new issue, each of \$40 mm., in the last year before war, and a net maturity of \$11 mm. in the second year of war, which were payable in U.S. dollars. (6) This issue was payable in U.S. dollars and sold mainly to U.S. banks. (7) Does not include \$325 mm. of Treasury Bills and Notes which were issued to the Bank of Canada in connection with the centralization of Canada's gold and foreign exchange reserves with the Foreign Exchange Control Board, under the Foreign Exchange Acquisition Order and the Exchange Fund Order of April 30, 1940. (8) In addition to the *increase* or decrease in the government's cash balance, the "Residual Item" also reflects sundry small items of *outgo* such as loans and investments, and sundry small items of income such as annuities and superannuation fund receipts, which are not shown separately in the present tabulation.

(1) Adjusted to 1926 = 100 from base 1913 = 100 in 1926-29 and from base 1930 = 100 in 1930 and thereafter. (2) Bureau of Labor Statistics Index of Prices of Finished Products.

WHOLESALE PRICE INDEX  
PERCENTAGE INCREASE BETWEEN AUG. 1939 AND AUG. 1941

NOTE: The vertical measurement of each bar represents the weighting of the respective commodity group in the total wholesale price index, i.e. the area of each bar in the chart represents that part of the total increase in the wholesale price index which has been contributed by the commodity group in question. \* In the case of wheat the index is based on open market prices. Using the Wheat Board's fixed price to producers wherever this exceeded the open market price, the increase in the wheat price index over the period in question would have been 8%.

\* Issues payable in foreign currency are included at the par of exchange up to Sept. 15, 1939, but thereafter conversion is made on the basis of the official rates of the Foreign Exchange Control Board. (1) Subject to revision. (2) Treasury Bills are excluded. For particulars of Dominion Treasury Bills see Heading IV. (3) C.N.R. bonds guaranteed by provinces are treated under the heading "Other C.N.R.". (4) Includes retirements through sinking fund purchases. In many cases available data did not permit more than arbitrary approximations for separate portions of the fiscal year. (5) Does not include \$250 mm. of 1 year 1% Notes which, under the Exchange Fund Order, 1940, the Dominion government issued and sold to the Bank of Canada on May 1 in order to supply the Foreign Exchange Control Board with funds with which to purchase gold and foreign exchange under the terms of the Foreign Exchange Acquisition Order. These notes were renewed in 1941. (6) Payable in Canada only. (7) Because of lack of sufficient data no tabulation of retirements by municipalities and religious institutions was possible. For the same reason these bodies are not included in the Summary of Changes in Currency of Payment. (8) The issue of \$75 mm. of Dominion Treasury Bills shown in 1940 was made in the same manner and under the same authority as the issue of Notes referred to in note (5) above. (9) The \$30 mm. Bell Telephone issue which was called for redemption on 1st March, 1940, and refunded in August, 1939, is for the purposes of this table taken as maturing in the third quarter of 1939. (10) Including issues payable optionally in Canada or London. (11) Only, or optionally.
